

Permission to be Filmed or Live Streamed 2022

Dear Parents,

As we saw with the end of the school year in 2021, filming and live streaming of school based events has become more common due to ongoing restrictions under Public Health orders in relation to COVID-19.

In preparation for school events throughout 2022, we are writing to you seeking permission to film your child during assemblies, performances and other school wide events and learning experiences. If you consent to your child being filmed, these events may be published on the School's website or Learning Hub for up to a period of 12 months.

In considering whether to give your consent you need to consider that material published in this way can;

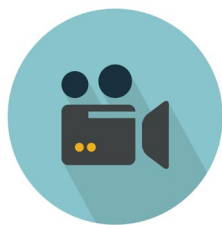

- be viewed by any person
- downloaded by third parties
- stored and may potentially republished by third parties outside the Department

Further, parents should be aware that when information is published on public websites and social media channels, it can be discoverable online for a number of years, if not permanently. Search engines may also cache or retain copies of published information. Published information can also be linked to by third parties on other websites.

Video footage and/or photos may also be used on the Concord West Public School website or in other school promotional material.

Please fill in the permission to publish form on the next page and return to the school office.

At Concord West Public School we pride ourselves on creating informed digital citizens of the future. Therefore, students and staff will be notified when they are being filmed or live streamed.
